## V4 Regional Chamber-to-Chamber Meeting 1.0

“C2C”

## Background

On 6 September 2016, an international conference was organised by the Chamber of Commerce and Industry of Pest County and Érd City with County Status with the participation of regional chambers of V4 countries.

The conference as the prelude of the project lead to the realization that the regional CCIs already have a strong potential but there is always room for development.

It was proved that chambers can achieve positive results mostly on a regional level, thus the cooperation and harmonization of activities of the chambers would be most beneficial at a regional level.

## The Project

Public events held within the framework of the project will be the next step of the cooperation process launched at the conference in September 2016.

The representatives of the participant chambers together invited experts from the V4 region will discuss in a *round-table talk* the most recent challenges of the dual education in the V4 countries. The round-table members will examine how the co-operation will contribute the competitiveness of the V4 region.

The publicity will have opportunity to ask the round-table speakers in a *forum talk* about the dual education, professional training and about other relevant topics which are the most acute.

Parallel the forum and the round-table talk and beyond some Hungarian, Slovak and Czech *enterprises will introduce* their products and services in the area of 37<sup>th</sup> Csallóköz Fair between 20<sup>th</sup> and 24<sup>th</sup> September 2017 in Dunajská Streda

## Participants

Participants has set the goals of the project as to facilitate long-term operative implementation of cooperation between regional chambers of commerce and industries (CCIs) participating in the event.

The purpose of the events is to be an example and model for a series of annual events where other CCIs could meet in other regions of the V4 countries. Strategies and joint actions developed at the meetings can synergistically improve the competitiveness of the V4 area both on a global and on EU level.
